GLUE — TOP EDGE *(this strip tucks into the notebook spine)*

ENERGY CAUSES CHANGE

Chapter 1 · Grade 4 · Insert 1 of 3

BIG QUESTION

Where can we observe evidence of energy causing change?

VOCABULARY + DRAW

energy — Energy is the ability to cause _____ .

change — Change means something becomes _____ .

evidence — Evidence is something we observe that helps us _____ what happened.

THE MODEL

ENERGY → CHANGE → EVIDENCE

ONE EXAMPLE — BEFORE & AFTER

BEFORE	AFTER

What changed? _____

FORMS OF ENERGY — MEMORY CUES

MOTION	LIGHT	SOUND	HEAT	ELECTRICAL
rolling	*bright*	*loud*	*warm*	*powers*

GLUE — TOP EDGE *(this strip tucks into the notebook spine)*

STORED ENERGY — READY FOR CHANGE

Chapter 1 · Grade 4 · Insert 2 of 3

KEY IDEA

Stored energy can cause a change later.

THREE EXAMPLES — WHAT CHANGE COULD HAPPEN LATER?

battery

in a flashlight

LIFT THE FLAP

the light turns on

stretched rubber band

held still

LIFT THE FLAP

it snaps back and moves

raised object

held up high

LIFT THE FLAP

it can fall down

Flat option (no flap): *skip folding — write your prediction on the line under each example.*

DRAW ONE EXAMPLE

draw your stored-energy example here

GLUE — TOP EDGE *(this strip tucks into the notebook spine)*

ENERGY DETECTIVES — EVIDENCE

Chapter 1 · Grade 4 · Insert 3 of 3

OBSERVATION VS EXPLANATION

Observation = what I see. **Explanation =** what it means.

SCAVENGER HUNT RECORD

WHAT I OBSERVED BEFORE

WHAT HAPPENED

WHAT CHANGED

WHAT IS MY EVIDENCE?

HOW DOES THIS SUPPORT THE IDEA THAT ENERGY WAS INVOLVED?

REMEMBER

ENERGY	CHANGE	EVIDENCE
