Moving Marbles — Investigation

Chapter 2 · Use with Lesson 3

Name: _____ Date: _____ Group: _____

BIG QUESTION: How does a moving marble provide evidence that it has energy?

PREDICT

What do you think will happen when the moving marble reaches the target?

BEFORE

Draw or describe the moving marble and the target. Use arrows for motion.

TEST

Run 3 trials. Keep the setup the same. (Optional: measure target movement in cm.)

Trial	What moved before?	What changed after contact?	How did the target change?	Evidence the moving marble had energy	Target movement (cm, optional)

MODEL

Draw BEFORE and AFTER. Use arrows to show motion.

BEFORE	AFTER

EXPLAIN

Claim: The moving marble had energy of motion.

Evidence: (What did you observe?)
