Energy Detectives — Scavenger Hunt

Chapter 1 · Use with Lesson 1

Name: _____ Date: _____ Group: _____

BIG QUESTION: What changed, and what does the change tell us about energy?

PART A — DEMONSTRATION / CLASS EXAMPLE

Before:

What changed?

What evidence did you observe?

What form of energy might be involved?

PART B — ENERGY SCAVENGER HUNT

Find three classroom examples of change. Do not copy the class example.

Object / System	Before	After	Observable Change	Evidence of Energy	Possible Energy Form

Write one question you still have:

PART C — STORED ENERGY (battery / device)

Prediction — What do you think will happen?

Observation — What happened?

Evidence — What change did you observe?

Explanation — What does this tell you about stored energy?
