Wind Energy

Chapter 5 Unit 2 Guided Notes · Grade 4 Using Natural Resources for Energy

Name: _____ **Date:** _____

BIG QUESTION **How do people use wind as a source of energy?**

KEY WORDS

wind farm — many wind _____ placed together to make electricity.

turbine — a machine with blades that _____ when wind pushes them.

ELECTRICITY PATHWAY

MOVING AIR (WIND)

↓

TURNS THE BLADES

↓

SPINS THE GENERATOR

↓

ELECTRICITY

DRAW / LABEL

Draw a wind turbine. Label the blades and the generator.

draw a wind turbine here

CHECK YOUR THINKING

Where does the energy to turn the blades come from?

Benefits and Limitations

Name: _____ **Date:** _____

BENEFITS AND LIMITATIONS

BENEFIT	LIMITATION
renewable (wind keeps coming)	_____
no fuel is burned	_____
needs a windy location	_____
wind is not always blowing	_____

LOCATION MATTERS

Some places are windy one day and calm the next. Wind works best where the wind blows steadily and strongly enough.

Batteries can store electricity for times when the wind _____ blowing.

CHECK YOUR THINKING

Why is wind called renewable but not always available?

CONNECT *Chapter 5 connection: wind is free and renewable, but it depends on location and weather.*
