# Friday Flex — Moving Objects Have Energy

**Optional after the Chapter 2 quiz · Not Week 1 Friday · Not graded**

**Name:** _____ **Homeroom:** ○ 4A ○ 4B ○ 4C ○ 4D

Recover: finish Guided Notes, or use the absent-student recovery page.

**Mystery files. For each story, name the moving object, the change, and the evidence.**

1. A rolling cart pushes a box. The box slides across the floor.

_____

_____

2. A swinging door bumps a ball. The ball rolls away.

_____

_____

3. A toy car knocks over a stack of blocks. The blocks fall.

_____

_____

**Cut out the 9 cards. Match each object with the change it causes and the evidence that shows it has energy.**

*Cut on the dashed lines. Do not write the matches on this page until you have sorted the cards.*

| | | |
|---|---|---|
| **OBJECT**<br>**Hammer** | **CHANGE**<br>**The blades spin** | **EVIDENCE**<br>**I saw the gears move** |
| **OBJECT**<br>**Pendulum** | **CHANGE**<br>**The nail goes into the wood** | **EVIDENCE**<br>**I saw the blades start to turn** |
| **OBJECT**<br>**Wind** | **CHANGE**<br>**The clock gears turn** | **EVIDENCE**<br>**I saw the nail move into the wood** |

**Sort mat. Place the matching cards in these columns.**

| Object | Change | Evidence |
