Moving Objects Have Energy

Chapter 2 · Week 2

BIG QUESTION: How are energy, change, and movement of objects related?

VOCABULARY + DRAW

motion — An object is in _____ when its position changes.

energy of motion — A moving object has energy of _____.

MY DRAWING (a moving object + arrows showing direction):

draw a moving ball with an arrow →

Moving Object Model

Chapter 2 · Week 2

THE MODEL

MOVING OBJECT → CAUSES CHANGE → EVIDENCE OF ENERGY

BEFORE / AFTER

BEFORE **AFTER**

draw before → after (moving object hitting a target)

OBSERVATION VS INFERENCE

OBSERVATION — What did we see?

INFERENCE — What does the evidence tell us?

LIFT THE FLAP

WHAT DID WE SEE?

FOLD HERE (fold down, then lift to read)

WHAT CAN WE CONCLUDE?

A moving object has energy of motion because it caused a change.

Moving Marbles — Evidence

Chapter 2 · Week 2

NOTICE

EVIDENCE

Record our Moving Marbles results.

Trial	What moved before?	What changed after?	Evidence of energy

EXPLAIN

Claim: the moving marble had energy of motion. Evidence:

CONNECT

How does a change show that a moving object had energy?
