Chapter 3 · Absent-Student Recovery

FLEX · not a first lesson

Name _____ Date _____

BIG IDEA: For the same object, greater speed is related to greater energy of motion. A greater change is the evidence.

READ: Reader pages 13–16.

1. What is speed? (Reader p. 13)

_____

2. Compare the same ball at two speeds. What greater change shows more energy of motion?

_____

3. In Ramp It Up 2.0, what two things did students measure in centimeters?

_____

4. What did the Reader say happens to objects on steeper ramps? (p. 15)

_____

5. How are energy and speed related? Use the same object in your answer.

_____

_____

Missed the lab? Explain the relationship from the Reader. Your teacher may show you the class graph. Do not copy fake personal data.

Drop It is not required makeup.

If you missed the quiz, makeup is within 2 school days.
