Chocolate Chip Mining

OPTIONAL FLEX MODEL · this is a MODEL of resource extraction

Name: _____ **Date:** _____

WHAT THE MODEL STANDS FOR

MODEL PIECE	STANDS FOR
Cookie	Rock underground that holds a resource
Chocolate chips	The resource being mined (like coal or metal)
Toothpick	Mining tools
Cookie crumbs	Disturbance to the land

WHAT TO DO

1. Place the cookie on a napkin. DRAW it before mining (BEFORE box).
2. Use a toothpick to dig out as many whole chocolate chips as you can.
3. DRAW the cookie after mining (AFTER box).
4. Count the chips you removed.

BEFORE	AFTER

RECORD

Chips extracted: _____

THINK ABOUT IT

What does this model help us understand? Mining takes a resource out of the ground and disturbs the land around it.

What does this model NOT show? A real mine is much bigger, deeper, and affects more land, water, and air than a cookie can show.

DO NOT eat the materials.
