FRIDAY FLEX — UNIT CLOSE (Week 9)

> No essential new standard. Recover, practice, or extend to close the unit.

RECOVER

- Final-assessment makeup (absent students) — see `recovery/07-ch7-absent-student-recovery.md`.
- Corrections/recovery (missed items) — see `recovery/07-final-assessment-corrections-recovery.md`.
- Notebook completion — finish Inserts 1–3.
- Missed Thursday application prompt.

PRACTICE

- **Energy's Big Questions** (AP UR.1) — answer your assigned question in 3–4 sentences; underline Core Vocabulary.
- **Cumulative retrieval game** — Jeopardy-style across Ch.1–7 (concepts, data, transfer/transformation, engineering).
- **Graph/data error detective** — find the mistake in a mislabeled graph or a speed/mass confound.
- **Transfer / Transformation / BOTH retrieval** — quick-sort cards from the whole unit.
- **Fair-test sort** — which plans change only ONE thing?
- **AP 13.5 / AP 13.6** vocabulary crossword + review.

EXTEND

- **Redesign challenge** — pick any device and propose ONE evidence-based improvement.
- **Engineering reflection** — "what did my capstone teach me about persistence?"
- **Unit media** — review a transformation/persistence explainer (if available).
- **Device mystery** — infer an energy pathway from a description.
- **Class science showcase reflection** — one thing to share with a visitor about this unit.
